Server & Systems

Improving your business!

For over ten years Rausch Netzwerktechnik has been working as a distributor of individual and standard server systems for webhosters and can relate on more than 200.000 systems in webhosting datacenters worldwide. With a wide range of high quality products for server, storage and cloud computing, Rausch offers the perfect solutions for your business.

With the right equipment like customized server solutions and standard systems of Dell, HP or our own, as well as with the professional maintenance of your system you can always rely on us!

Customized Solutions

Exactly what you need!

It's obvious: The right product is important to improve your business. But what's worth a great product without the matching know-how? Rausch Netzwerktechnik is the missing piece: With the expertise of our consultants we ensure, that you'll always get a system that serves your needs.

Only the best

Webhosting solutions you can rely on

Your benefits

Services - that will convince you

Partnerships - Co-operate with experts

Rausch Netzwerktechnik is a strategic business partner of market leading companies like Intel, Seagate, AMD, Supermicro, LSI and Western Digital. Those partnerships enable us in a short time frame to manufacture all customized and standard systems that our clients need. Our co-operations with HP and Dell are ensuring interesting conditions for those systems, too.

References

After more than ten years we proudly relate on more than 200.000 systems in webhosting datacenters worldwide. You can always count on us, too - today and in the future!

Rausch Netzwerktechnik - Speaking your language!

It's great to find the right products, but it's important to find a partner you can rely on, too. Since 1998, Rausch Netzwerktechnik from Karlsruhe is a trusted IT service provider for hosting-, data center- and business-clients. With products and services Rausch Netzwerktechnik offers the whole package for the efficient communication in business, hand in hand with high quality and reliability.

...and what can they do for me?

With different server and storage solutions Rausch Netzwerktechnik provides services exactly for customer needs. Beyond that, Rausch Netzwerktechnik counts on the development of power-saving and efficient server and storage systems through high packing density and by using efficient components.

**With consulting, expertise, know-how, quality and great partnerships
we're making your data center ready for the future.**
