Make your Storage immutable and keep ransomware out

⊕ Yowie[®] appliances are challenging the traditional storage industry and go beyond common standards to store, protect and help recover your most valuable asset: data. The next level of the Yowie Appliance Family protects stored data and backups with a useable capacity from only 8TB and provides you with all benefits of Cloudian[®] HyperStore[®] including object lock to make your storage immutable. The Yowie 1200-series are single node appliances with 6 hot swappable HDDs and 2 SSDs but no built-in redundancy. It's an ideal, affordable, on-premise device for branch offices or remote working locations that are regularly synchronising to an external data store.

RNT Rausch. Making IT possible.

Specifications

Model	CL-1206H08	CL-1206H16
Raw capacity	6x 2TB	6x 4TB
Useable capacity	8TB	16TB
SATA HDDs	3,5" Enterprise SATA HDD	
SSDs for OS/Metadata	2x 240GB SATA III - mirrored (RAID 1)	
Form factor	2U	
Data protection	Raid 6	
Redundancy	Hot swappable HDDs and SSDs; 2x hot swappable power supplies, non-disruptive online software upgrades [to verify]. Appliance contains single mainboard and CPU - not redundant. Synchronising to external datastore highly recommended	
CPU	Intel® Xeon® Scalable 4310	
Memory	64GB DDR4 ECC registered	
Network Interfaces*	2 x 1/10GbE RJ45	
Monitoring/Management	SuperDoctor® 5, SUM, KVM with dedicated LAN, SPM, Intel® Node Manager, SSM, IPMI2.0, Watchdog	
Power supply	300W 90-264VAC 1+1 Redundant	
Dimensions	88mm x 482mm x 515mm (HxWxD)	
Weight	16 kgs fully populated	
Tool less railkit	Yes	

RNT Rausch GmbH | February 2022

*SFP transceivers and network cabling not included and must be supplied by the customer.
