

**Hibagon®**  
MOBILE DATA SAFE

## Hibagon® Mobile Data Safe

Your armoured storage system  
for secure transfer of large data

- ⊕ Use Hibagon to overcome typical challenges associated with large data transfers like bandwidth bottlenecks, poor internet connections or costly data transfer fees.

Transfer large amounts of data physically and securely from one location to the other. Hibagon Mobile Data Safe is a robust, shock-proof and water resistant storage device that transports your data across companies, cities, countries and continents irrespective of weather conditions and transportation vehicles.

RNT Rausch. Making IT possible.

## Specifications

Hibagon® Mobile Data Safe					
Usable Capacities	28TB	56TB	84TB	112TB	140TB
File system	8 x 4TB Enterprise HDDs	8 x 8TB Enterprise HDDs	8 x 12TB Enterprise HDDs	8 x 16TB Enterprise HDDs	8 x 20TB Enterprise HDDs
Usable Capacities	Open ZFS				
NAS interface	Optical: 2x 10Gbit SFP+ Copper: 2x 1/10Gbit RJ45				
Supported Protocols	File (NFS, SMB, AFP) Object (S3-API, S3-Host, Cloudsync) Block (iSCSI, Cinder, VAAI) FTP				
Supported RAID mode	RAID 5				
CPU	Intel® Atom® C3958				
Power specifications	110V - 240V				
Power consumption	200W				
Temperature operational	+5°C - +40°C (41°F - 104°F)				
Temperature non-operational	-40°C - +65°C (-40°F - 149°F)				
Protection rating	IP45				
Encryption	AD, LDAP, SSH, AES-XTS				
Height	435mm				
Width	330mm				
Depth	415mm				
Weight	17kg
